

Peer-learning roundtable II. / Trondheim 2023

Mai: 9. 5. – 14. 5. 2023

Project: Czech-Nordic Memorabilia II - Democracy and Active Citizenship in Higher Education (EHP-CZ-ICP-4-009)

Peer-learning roundtable II. focuses on sharing good practice between Czech and Norwegian teams in the field of education in historical and sociocultural courses. The Roundtable will focus on sharing good practices of Norwegian university teachers on how to work with the concepts of Democracy and Active Citizenship in the university classrooms. Democracy and Active Citizenship are one of the three key interdisciplinary themes of the new national curriculum in Norway, which is being implemented at all levels of education from 2019. These themes are widely discussed in the educational process in Norway and the roundtable will aim for the Czech participants to learn about how these principles can be used in the workplaces they visit. The aim of the meeting is to identify areas in teachers' curricula where they could contribute to strengthening principles of democracy and active citizenship (medborgerskap) in higher education.
